## About Spiritual Response Therapy

Spiritual Response Therapy (SRT) is a system of researching the subconscious mind and soul records to quickly find and release the discordant, limiting ideas and replace them with loving, supportive ideas and beliefs. SRT provides an exacting, powerful, virtually painless and accurate way of changing the landscape of our inner and outer lives, enabling us to live our lives more freely. This "research," which is accomplished with the help of higher guidance (your "Higher Self"), includes finding past life energies, subconscious blocks, and negative soul programming. Once identified, these blocks and negative energies can be cleared from the subconscious, soul (Akashic) records, allowing you to heal yourself on all levels. SRT was developed by Robert E. Detzler, and has been used by thousands of students since 1988.

With Spiritual Response Therapy, you use your muscle responses to bypass your conscious mind and negative programming to connect with subconscious and your guidance within. A pendulum is used as a movement amplifier and pointer as you communicate with your Higher Self using a special set of charts. You can replace old programs with positive energy and inner peace. The result of this work has assisted thousands of people to live clearer, more joyful lives.

Spiritual Response Therapy (SRT) can clear past lives and negative energies that are keeping you from attaining your highest expression! Robert Detzler's books [\*The Freedom Path\*](#) and [\*Soul Re-Creation\*](#), in addition to his [classes](#), teach you to use SRT to research and clear those negative energies and blocking memories. You will learn about soulmates and twin flames, communicating with your High Self, and developing your cosmic potential.
